

STOP WATER SPREADING

BEFORE IT CREATES A HAZARD

Condensation, refrigeration run-off and doorway see page can quickly create slip risks and disruption.

PIG ESSENTIALS WATER ABSORBENT STRIPS

Absorb, lock in and help contain water fast.

**FAST ABSORPTION.
LESS SPREAD. SAFER FLOORS.**

ABSORBS FAST

Super Absorbent Polymer (SAP) filler swells on contact with water and expands to quickly absorb large volumes of liquid.

LOCKS WATER IN

Absorbed water is "locked" inside, won't leach or run out when picked up or disposed of, even when fully saturated.

HELPS STOP SPREAD

Expands to create a barrier that contains condensation, run-off and drips from refrigeration units and helps prevent water from seeping under doors and into walkways.

EASY DISPOSAL

Non-toxic for easy handling and disposal. Simply pick up and dispose of in the regular waste stream.*

**Dispose of in accordance with local regulations.*

BEFORE CONTACT

Low-profile for tight spaces.

AFTER ACTIVATION

Expands and locks in water to help contain and prevent spread.

Low-profile (*before water contact*) to fit tight spaces; unobtrusive design won't create trip hazards.

Printed with a multilingual message and a symbol for added safety.

High-visibility for quick identification in busy areas.
